

ABOUT THIS REPORT

The Company has prepared a Sustainability Report for the 13th consecutive year, commencing in 2012, when it was first issued as a separate publication from the Annual Report. Initially, it was developed in reference to the international standards of the Global Reporting Initiative (GRI-G3). In 2022, the report was prepared in accordance with the GRI Standards 2021 and has continued to be produced under these standards to the present.

Report Content

This report covers a total of 23 topics, comprising both key and other sustainability issues. A double materiality assessment has been conducted to identify the material sustainability issues, in alignment with the European Sustainability Reporting Standards (ESRS). Among these, 21 issues were identified as having medium to high significance, while two issues were assessed to have low significance.
