

Environmental Compliance

The company emphasizes conducting business in an environmentally friendly manner and adheres to various conditions and requirements specified in the laws comprehensively. The company is aware of the importance of environmental management in conjunction with its business operations. It has established an Environmental Management System (ISO 14001:2015) with the goal of conducting internal audits at least once a year to raise awareness and verify the environmental management system among employees.

The goals for the year 2024

0 Case	0 Baht	At least 1 Time
Violations of environmental laws or regulations	Fines for violations of environmental laws or regulations.	Internal monitoring within the Environmental Management System (ISO14001 : 2015)
